## SERVICES FOR FAMILIES

Early education and childcare in Kloten

Dear parents

It is beyond doubt that children benefit greatly from early education, especially in the first years of their lives. But what is early education? As a parent, what is your role in early education? It is not about teaching your child and having them learn as many skills as possible. What is important is recognizing the child's needs and responding accordingly. In this context, your child's need for a positive, emotional bond with you as a parent is especially important.

Kloten can offer you a wide range of guidance, support and interaction options to help you meet the challenges of parenting.

Questions about day-to-day parenting? Looking for a playgroup or childcare place for your child? Interested in finding out how to obtain subsidies for a place in a day-nursery or after-school care facility? Would you like to meet other mothers and fathers?

This brochure will tell you where to find information, meet other parents, or discuss your needs with professionals. We encourage you to take avail of the services on offer. We hope that they will provide you with encouragement in your day-to-day parenting and contribute to a thriving family life.

Kind regards,  
Municipality of Kloten

## Subsidy requirements

To obtain a subsidy:

- the family must live in Kloten
- the parents must be working or in training during the period care is provided (attending a German language class does not count as training)
- Minimum childcare hours day-nursery: 2 full days or 3 x 2/3 days
- Minimum childcare hours childminders: 8 hours with a childminder that is affiliated with the TFZU

The subsidy or the parental rate is based on the family's total income. This is calculated on the basis of annual salary statements from the previous year.

## Calculation of subsidies

### 1. Calculation of relevant income

<b>Father's</b> annual net income as per salary statement	_____	CHF
+ <b>mother's</b> annual net income as per salary statement	_____	CHF
+ 5 % of assets up to CHF 100,000 as per tax statement	_____	CHF
+ 10 % of assets CHF 101,000 – 300,000 as per tax statement	_____	CHF
+ 15% of assets from CHF 301,000 as per tax statement	_____	CHF
+ Child support payments per year (if father/mother is a single parent and only one income is offset)	_____	CHF
+ supplement for cohabiting partner in the same household CHF 18 000	_____	CHF
<b>= Family's overall income</b>		<b>CHF</b>
<b>Less</b>		
./. household deduction 2-parent family (CHF 15,000) CHF or	_____	CHF
./. household deduction 1-parent family (CHF 10,000) CHF	_____	CHF
./. deduction per child (after-school, day-nursery or child-minding CHF 5,000)	_____	CHF
<b>= Relevant income</b>		<b>CHF</b>

This overall income is used to determine the subsidy level or the parental rate to be charged.

## 2. Subsidies as per income table 0–4 years

from 100,000	125	0	88	0	11.25	

### 3. Calculation of monthly subsidy for day-nursery:

Subsidy amount per day x day-nursery days x 49 weeks / 12 months =  
monthly subsidy

### 4. Calculation of monthly subsidy for TFZU day care families:

Number of hours of care per month x subsidy amount per hour x 4.3 =  
monthly subsidy
